The Grand Old Boys in Blue will march into Huntington Beach next Tuesday and take charge of Arbamar, and, according to advises received by Rev. F. D. Mather, who has charge of the camp grounds, from Quartermaster A. B. Paul of Santa Ana, the reservations to date indicate about the usual attendance, which in the past has taxed the capacity of the accommodations close to the limit.

The address of welcome will be extended by E. E. French, president of the Board of Trustees, and the response by Tom Hull of Los Angeles, commander of the Southern California Veteran Association.

This will be the thirtieth annual gathering of the Old Comrades, and the camp this year will be designated as Camp A. J. Willson.

Subscriptions

Subscription Price

OF NEWS IS ADVANCED.

PAPER WILL BE \$2.00 PER YEAR IN FUTURE.

The subscription price of the News has been advanced from \$1.50 per year to \$2.00 per year. There had been no intention on the part of the News to advance the price, believing that the old price could be maintained through the war period, but the new zone postal rate leaves no alternative but to advance the price of the paper to cover the increased cost of all materials and postage.

Most of the newspapers in the country have already advanced subscription prices to meet the war conditions.

THREE MORE HAVE JOINED THE COLORS.

C. L. COLE, LEO PARCEL AND FAY IRWIN THE BOYS.

Three more young men have decided they wanted a chance to be at the Kaiser's funeral and have joined the service. C. L. Cole, who has been employed at the Holly sugar factory, left Monday for Atlanta, Georgia, where he will join the engineering corps, and Leo Parcel and Fay Irwin left Tuesday for San Diego to enter the aviation service as ground men. Fay is the son of Mr. and Mrs. J. B. Irwin, being their second son now in the service. Leo is the son of Mr. and Mrs. F. W. Parcel.

CAMPMEETINGS WILL CLOSE SUNDAY NIGHT

**GATHERINGS HAVE BEEN
WELL ATTENDED.**

MARKED SPIRITUAL UPLIFT

**Evangelist Ferris and The Musical
Clarks and Mrs. Stewart
Making Favorable Impressions;
Platform Meetings Instructive.**

The Methodist campmeetings which have been in session at Arbamar since July 21, will close with the services Sunday evening.

From every viewpoint the meetings have been an unbounded success. Especially is this true when the fact is stated that most of such gatherings have been abandoned this year on account of the war.

While the attendance is naturally less than it would have been had it not been for the war, all of the meetings have been well attended and enjoyed.

From the viewpoint of a spiritual uplift, there appears to be but little doubt but what the meetings have been the most successful in the history of the assembly.

As Rev. S. S. Sampson, president of the assembly, has stated, Dr. Ferris, the evangelist, has delivered sermons that have fed the souls of those in attendance, and all will break camp with rejoicing for the benefits derived from the good work.

There is no doubt but what the music this year has been more interesting than ever before, with Mr. and Mrs. Geo. H. Clark in charge, so ably assisted by Mrs. Mabel Hardwick Stewart.

Some of the songs sung by these consecrated artists are of their own composition, and have left a lasting impression upon their auditors. As a gospel solo singer, Mrs. Stewart probably has but few equals in the evangelical field today. She was formerly Miss Mabel Hardwick of Ontario, and her voice was discovered in one of the church entertainments in that city.

Besides Rev. Sampson, the officers of the association are Rev. Chas. H. Scott of Ontario, secretary, and Rev. F. D. Mather, treasurer, who is also manager of the grounds this year, and they are to be congratulated upon the success of the meetings.

The platform meetings have been far and beyond any series of the past. The list of speakers has included such noted men as Governor Stephens, J. Stitt Wilson, Tully C. Knowles, etc., who have had messages of great value to deliver to the meetings addressed by them.

There has been a school of instruction in session this week that will be of lasting benefit to every locality that is represented, as about 200 ministers and selected laymen have received instructions which they will impart to their respective communities at some future time.

**MASONS WILL PICNIC
NEXT SUNDAY IN PARK.**

**WILL LEAVE THE HALL ABOUT
9:30 A. M.**

**MADE SOME IMPROVEMENTS
IN THE COUNTRY.**

E. E. French, president of the Board of Trustees, and T. W. Cadd finished work Tuesday on a tool house and an addition to one of the houses on the ranch of R. Courreges, on the Talbert boulevard.

**PAUL F. MITCHELL ON
THE WAY TO FRANCE.**

Mr. and Mrs. J. W. Mitchell received a letter, Tuesday, stating that their son, Paul F. Mitchell, had sailed from New York for foreign service.

PRIMARY ELECTION TO BE HELD AUGUST 27.

**OFFICERS AND POLLING PLACES
DESIGNATED.**

The primary election will be held Tuesday, August 27th, for the purpose of nominating township, county, state and congressional candidates. A primary is supposed to be for the purpose of nominating candidates, but on this occasion most of the contests will be decided at the first election, and those who failed to register will have no voice in such cases.

Starting with Huntington Beach township, there is no contest over the offices of justice of the peace and constable, as no one filed in opposition to Judge Warner and Constable Gale Bergey. In the second supervisorial district there are but two nominations, and the matter will be decided at the primary. On the county ticket there is but one office that there is any probability of continuing beyond the primary, and that is the contest for sheriff, where there are four candidates.

Passing on to the state, the situation is but little different. About the only offices that will probably not be decided at the primary are those of governor and lieutenant-governor. However, there is a chance of the gubernatorial race being disposed of at the primary election, as some of the candidates have filed for both the Republican and Democratic nominations, and the friends of James Rolph, Jr., mayor of San Francisco, believe that he has a fair chance of capturing each of the coveted prizes and making his election in November a certainty.

Consequently, those who neglect to vote at the primary because they do not think it is of much importance, will find but little to do at the second and final election. For this reason every qualified voter should exercise their rights on August 27th.

The Allied War exhibition is now open in Exposition Park in Los Angeles, and will continue until August 11.

The exposition is under the auspices of the U. S. Government, and consists of war trophies captured from the enemy in France, Belgium, Italy, Palestine, Turkey and the Far East. Consequently there is no question about the authenticity of the exhibit.

The admission is 50 cents, with a coupon attached which can be exchanged on the ground for a Thrift Stamp.

The first tank that crossed No Man's Land is shown, as are hundreds of other interesting war machinery and equipment. A visit to this exposition will give the people of Southern California a broader view of the war situation than could be obtained in any other manner. Everyone who can do so should attend. It is advisable for all to do so, otherwise the government would not have staged it.

**REV. FARLEY WILL BE

C., of his appointment as an army chaplain, with orders to report at Louisville, Ky., August 20th, to take part in the school of chaplains. Rev. REGULAR MEETING OF CHAMBER OF COM.

**FALL FESTIVAL 1ST WEEK
IN OCTOBER.**

ONE NEW MEMBER ELECTED

**Committee Appointed To Investigate
Raise Asked For By
So. California Edison Co.;
May Get Special Car To
San Pedro.**

There was an interesting meeting of the Chamber of Commerce Friday evening of last week. W. R. Osborne, agent for the Pacific Electric Railway Co., stated that there was a special car being run from Santa Ana to San Pedro, and he has been endeavoring to have this car routed via Huntington Beach in order to accommodate those who desire to reside here and work at the shipbuilding plants. He is of the opinion that this request may be granted. This arrangement, if successful, will be the best solution of the question that has yet been suggested.

Community Fall Festival.

The Community Fall Festival was discussed at considerable length, and at the suggestion of Trustee Joseph Vavra, the date was fixed for the first week in October, the number of days being left optional with the committee having charge of the event.

At the meeting in June, F. H. McElfresh, asked to be relieved of the chairmanship of the committee having charge of the fair. Judge Copeland said that someone should be in charge of the fair who had visions of big affairs, and Mr. McElfresh was such a man, and he hoped he would remain in charge of the work.

Wm. C. O'Connor said that he was still in favor of a paid secretary to relieve the chairman of the detail work, which required considerable time.

Judge Copeland suggested that someone could be paid to look after the correspondence, and make the headquarters in Mr. McElfresh's store.

President French stated he would like to see Mr. McElfresh retain the chairmanship if he could consistently do so.

Judge Copeland moved that the resignation of Mr. McElfresh be tabled. Mr. O'Connor said while he felt that Mr. McElfresh was the man for the place, he did not believe in insisting on him continuing as chairman if he felt that he was unable to do so. The motion prevailed.

A motion was passed authorizing the committee to appoint two or four additional members if it was deemed expedient to do so. The other members of the committee having charge of the fair are H. L. Heffner and H. T. Dunning.

Committee Will Investigate.

City Attorney Alex. P. Nelson stated that the Southern California Edison Company had filed an application with the Railroad Commission for a raise in rates. The notice, he said, did not state the amount of the raise.

Mr. O'Connor said that as this city was paying more for service than some other places, the matter should be looked after, and a motion prevailed referring the question to the railroad and transportation committee for investigation. If the committee finds that the raise asked for is unjustified, a formal protest will be filed with the Commission, which will occur in the Union League building, Los Angeles, August 15.

To Stop Fishing Boats.

President E. E. French asked if there was any way of stopping the fishing boats from fishing close to the pier. A few mornings ago, he said, one boat ran so close as to interfere with the lines that were cast from the pier. City Attorney Nelson said that he would take the question up with District Attorney West next week.

The Seal Beach Road.

Trustee Vavra called the Chamber's attention to the deplorable condition of the Coast Boulevard this side of Anaheim Landing, inside the city limits of Seal Beach. It has been said by the Seal Beach officials that they are short of funds and were unable to place the road in proper condition. Mr. O'Connor stated that the road beyond the Landing was at one time in almost as bad condition, but has been repaired. Judge Copeland suggested that President French, who is a delegate to the Associated Chambers of Commerce, take the matter up with

that body, and Mr. French stated he would be pleased to do so, and would start the ball rolling at the meeting Wednesday night at the Palisades Tavern.

At the suggestion of R. C. Turner, the finance committee was instructed to appear before the city trustees and ask for funds for the Community Fall Festival. The Board of Supervisors will also be asked for a donation.

J. C. Hall was elected as a member of the Chamber of Commerce.

FIFTY-SIX POTATOES DUG FROM ONE HILL

ONE HUNDRED SIX TAKEN FROM TWO HILLS.

WEIGHT FORTY-THREE POUNDS

Potatoes Dug On Ranch of Potato King Young In Presence of Witnesses Monday Afternoon; Result Great Surprise.

Two hills of potatoes were dug on the ranch of Potato King A. J. Young, north of the city, Monday afternoon, in the presence of several witnesses, that further emphasizes the fact that Mr. Young is justly entitled to wear the crown in the realm of potato culture.

April 3 Mr. Young planted some potatoes on his famous peatland on the north end of his 60-acre farm, and among the hills seeded were the two that Mr. Young dug Monday. There were two whole potatoes planted, one of them weighing 2 lbs. and the other 1 1/2 lbs.

Digging potatoes in peatland is something like taking potatoes out of a pile of granulated sugar, and Mr. Young did the digging with his hands, no implements of the ordinary kind used in potato fields being required to extract the big tubers from the rich, black decomposition forming that section of the farm.

Hill No. 1 was the one where the potato weighing the least was planted, and 50 potatoes were found to have grown from the one placed in the ground 113 days before, and the product of this hill weighed 24 pounds 3 ounces.

Hill No. 2, that contained the 2-lb. seed stock, was found to contain 56 potatoes, weighing 19 1/2 pounds. There were the same number of merchantable potatoes in each hill, being 40, but the average size of those in Hill No. 1 was larger. The largest one in Hill No. 1 weighed 1 pound 3 ounces, and Hill No. 2 1 pound 8 ounces.

These hills of potatoes were in the same row in the field and were side by side, being marked. Some of the statisticians present figured that if all the hills in the field yielded as prolifically as the two in question the average would be between 1000 and 1100 bags per acre. Mr. Young stated that the average was about 200 bags or 400 bushels per acre. There were several Mexicans digging in the field at the time, and they were using small sticks for removing the potatoes from the ground.

Mr. Young has been growing potatoes on this 12-acre tract of peatland continuously for 24 years.

The potatoes were weighed by Geo. W. Wardwell, deputy horticulturist for this district.

Those present when the tubers were dug were: E. L. Morris, horticulturist for Orange county, and his deputy, Mr. Wardwell; Judge Louis A. Copeland, president First National Bank; T. B. Talbert, chairman Board of Supervisors; W. T. Newland, prominent rancher and former president of the First National Bank; Judge W. D. Seely, real estate and insurance. Rev. R. I. McKee, pastor of the Methodist church; Rev. H. B. Ireland of Pasadena; M. Ainsworth of Omaha, Neb., and Jas. J. Conrad, editor Huntington Beach News.

After the digging it was found that there was no kodak in the assemblage, and Mr. Wardwell drove over to Will Preston's home and Mr. Preston took several snapshots of the potatoes and those present.

LOGAN JACKSON WAS HERE THIS WEEK.

Logan Jackson of Orange, one of the candidates for sheriff, was in Huntington Beach, Wednesday, and stated that the outlook for his candidacy was improving. Mr. Jackson is a clean campaigner and is not throwing brickbats at his opponents, as one other candidate is doing. He expects a big vote in his home city of Orange, the northern section of the county, and a fair showing in Huntington Beach.

There is another candidate who tells citizens that some of his opponents are nice fellows but they really have no show, and a vote for them would be thrown away. A vote conscientiously cast is never thrown away, no matter whether the candidate is elected or not. Beware of the candidate who makes such statements, as that is the German method of playing the political game.

"THE SIREN'S SONG" SATURDAY EVENING

"The Gun Woman" Sunday Night.

"THE CLOSED ROAD" FOR NEXT THURSDAY NIGHT.

Chas. H. Endicott, manager of the Princess Theatre, announces the following program for the coming week: Saturday, August 3rd.

"The Siren's Song" comes highly recommended. The story has in it many scenes that are hair-raising, the most prominent of which is the fight which equals that in "The Spoilers" on board an ocean-going steamer, at the climax of which the villain throws the hero from the deck, the latter falling a distance of over seventy-five feet into the raging ocean. To make this scene realistic, it was necessary for it to be taken in the dead of night, and although there was a life-saving crew in a boat within a reasonable distance to pick him up, it took them over half an hour to find their man because of the denseness of the night.

The wrecking of a bank by the duped depositors is another strong scene that equals the mob scene that made such a tremendous hit in "The Pit."

The villainous acts of the adventurers to gain money from the unsuspecting widow is another strong feature.

The hero, after being thrown overboard, floats all night, clinging to a log in the water, and is eventually picked up by some fishermen and landed in a small town along the fishing banks.

It is at this point of the story where the love element, which is one of rural simplicity and appealing to all, starts its ever-entwining way to the finish.

Sunday, August 4th.

A Triangle special, "The Gun Woman," and Triangle Keystone comedy.

Thursday, August 8th.

Dr. Hugh Annersley, working laboriously in his laboratory, assisted by Dr. Appledan, an old-school physician, has succeeded in finding a cure for cancer. Julia, Dr. Annersley's sister, comes home with Griswold, a former client of the doctor, and to whom he still owes money. Griswold did not enter the house, Annersley saying to Appledan that if Griswold would pay him what he owes, he could then continue his work with the medical discovery.

Griswold now being attended by Appledan, Annersley decides to write

him a letter, in which he states that unless he is paid within twenty-four hours, that he will go to Griswold's apartment to collect the account himself. Appledan takes the letter to Griswold himself.

In giving medicine to Griswold, Appledan gives him an overdose, resulting in his sudden death. To ward off suspicion, Appledan places Annersley's letter threatening violence to Griswold on the latter's table, and, firing two shots out of a revolver, the aged doctor leaves the room.

When the police investigated, they found the revolver on the floor, and on it was carved Hugh Annersley's name. Circumstantial evidence in the form of the revolver and letter pointing to Annersley, he was placed under arrest charged with the murder.

Julia, calling upon Appledan, notices the old doctor laughing hysterically as Frank Sargeant, a well-to-do young man, leaves his office. He tells Julia that he has just warned Sargeant he could not live more than a couple of months on account of the poor condition of his heart. With this knowledge, Julia starts in search of Sargeant, and finds him in an old quarry just as he was to commit suicide. She persuades him to listen to her.

While awaiting electrocution, Sargeant learns that his heart was never affected, that old Doctor Appledan was mentally unbalanced, and then confined to an insane asylum. Upon learning this, Julia sets out to clear Sargeant and reverse the wheels of destiny against him.

The old doctor confesses that he gave Griswold an overdose of medicine, and to clear himself had placed Annersley's pistol near him. Julia also succeeded in finding Sargeant's former butler, who testified that Sargeant was in his home at the time the crime was committed, thereby so strongly clearing Sargeant that he was released.

How Julia repaid Sargeant for his great sacrifice by her love and affection brings the picture to a dramatic and happy ending.

CECIL S. HUNTINGTON MEETS DEATH IN FRANCE.

ENLISTED FROM HERE MORE
THAN YEAR AGO.

The dispatches Wednesday carried the information that Cecil S. Huntington was killed in an airplane accident in France, July 25th.

Mr. Huntington was one of the first boys to enlist from Huntington Beach after the registrations in June of last year, and is the first one so far as known to pay the extreme price. He entered the service as a member of the signal corps and rose to the rank of lieutenant in the aviation service. While here he was agent for the Standard Oil Company, and was a member of the Chamber of Commerce. The many friends of Mr. Huntington in this vicinity regret his untimely passing from the scene of his chosen activity. His only relative is a sister, Miss Helen Huntington, of San Francisco.

DAUGHTER OF MR. AND MRS. WINSTON KILLED.

HIT BY MACHINE ON LONG BEACH
BOULEVARD.

Mary Winston, the 2½-year-old youngest child of Mr. and Mrs. C. W. Winston of 506 Eleventh street, was hit by an automobile on the boulevard west of Westminster, Thursday evening about 9 o'clock, and was so severely injured that she passed away after being taken to a hospital in Long Beach.

Mr. and Mrs. Winston and two children were on their way to Long Beach when a blow-out in one of the tires on their machine occurred, and while Mr. Winston was making the change Mrs. Winston and the children walked on ahead, and while two machines were passing in different directions the child was hit by one of them.

Mr. Winston is field man for the Holly Sugar Corporation, and the family moved here last year.

Funeral arrangements had not been made before going to press, but it is understood the Odd Fellows will have charge, and the services will be in Long Beach.

Mr. and Mrs. Winston have the sympathy of the community.

WILL TEACH ENGLISH IN THE HIGH SCHOOL.

Miss Gladys P. Chapman has been engaged to teach oral English, English, French, and physical culture in the High school next term. Miss Chapman taught in the Montebello school last year with principal E. L. Mitchell.

TO WHOM IT MAY CONCERN:

Notice is hereby given by the Fidelity-Phoenix Insurance Co. of New York that its blank policies 1001 to 1025, inclusive, have been lost, and that such policies are void and of no value if held by any person or persons, and purport to be policies of insurance.

A. A. MALONEY,

RED CROSS

Red Cross rooms opened Tuesday, August 6th. Owing to shortage of cotton material, hospital garments will not be made for the present. All workers wishing yarn to knit socks can call at the Red Cross rooms on regular days. Notice will be given in due time when materials for sweaters and hospital garments arrive.

Regular monthly meeting Wednesday, August 14th.

FRANCES R. NELSON, Sec.

NO MORE GROCERY SOLICITORS WILL CALL.

DELIVERIES WILL BE MADE AS
IN PAST.

If you are waiting for the solicitor to call for your order for groceries you will get hungry before you have the pleasure of placing an order in that old familiar way, as taking of orders in this manner was discontinued Thursday morning.

If you want groceries you will have to call at the store or telephone your order. Deliveries will be made as in the past. This arrangement affects but two stores, McKenney & Bentley and W. M. Adair, and is in compliance with the request of Government officials that the expense of doing business be reduced to the minimum.

This will no doubt affect Geo. A. Corbett more than anyone else, as he has been with McKenney & Bentley as a solicitor and clerk so many years that he is liable to forget and start out over his route some morning. He is a valuable man in a grocery store.

MELVIN BUSTER WRITES FROM AVIATION FIELD.

The following letter was written by Melvin Buster, nephew of Mrs. Mary Starr-Robertson of this city, and son of Mrs. C. E. Lewis, who formerly resided in the Talbert district:

Dear Mother and Charley—Your letter arriving this noon reminds me that I have been quite negligent lately about writing. It is so easy to become absorbed in the flying game and forget that which is going on outside. I know that you can realize to quite an extent how fascinating it really is.

I have forgotten when I last wrote, so it will be a little difficult to bridge over the space between letters, but I can at least tell you about what I am doing now and what I hope to do in the immediate future. The latter, of course, is always the more important. I shall never forget with what expectation I have looked forward to each new stage in this game, especially because they have been so slow in developing. I recall now that when I first started in ground school I fully expected to be in France by this date. Of course there have been many interesting things to enjoy and learn about all the time, but as I am now rapidly approaching the last stages in my training before receiving a commission, I cannot forget the many delays I have had to endure. Of course, it has meant much more thorough training; but if, in the meantime, the war should end before I get "over there," I shall feel greatly cheated. Quite naturally, I do not desire to be killed, but I hate to think of perhaps having to miss the experiences which are being gained by the fellows over there in the thick of it.

I have read a great deal about the war; I have seen the lives of three of my comrades snuffed out in a few seconds, and I am extremely grateful for strong powers of imagination; but I still feel that my mind is incapable and my soul too small to grasp fully what these experiences must mean in the development of the men over there. If you have an opportunity to secure the little book, "Carry On," by Lieutenant Dawson, you will understand better, perhaps, what I mean, and why I desire to get across and in action before it is all finished. Still I am not so selfish that I should not be happy to see the war end today. In any case I shall no doubt complete my training.

I fear that I have wandered a little so I shall come back more strictly to "me" and flying. Have been in acrobatics during the past two days and enjoyed it very much. The stunts which are "pulled off" by an aviator are really few and quite simple. But, even at that, I am certain that after my acrobatic instructor turned me loose to "stunt" alone I originated quite a number never classified before, in my efforts to duplicate those he had taught me. Twice I came out of a loop into a tailspin. But when I discovered that it was a little difficult to pull out with my power on and I was journeying toward terra firma at about 125 miles an hour, I simply cut off my motor, put her into a real tailspin for a turn or two and then pulled her out and "jazzed" back up for altitude. We never do our stunting below 2,000 feet, usually at about 3,000, so that after attempting some stunts and then finding ourselves in peculiar and unexpected positions we have an abundance of time to right ourselves before landing; unless, of course, in rolling around we should fall asleep, which, as you may imagine, is extremely unlikely.

Perhaps what I have written may make you a little bit nervous, but I assure you that there is no danger if we inspect our ship carefully before leaving ground, and then exercise care while flying not to subject it to undue strains. These ships are light, of course, but their factor of safety is seven to one, which is very large. Then, of course, it is necessary for us to use our heads all the time. Received quite a little praise the other day from my instructor and other officers at the central tower (a wooden tower in the middle of the flying field where the officers, cadets and enlisted men congregate, as well as the ambulances, trucks and motorcycles, and from which the ships are dispatched) for what they called "using my head." Was "taking off," and my motor began to miss before I was entirely out of the field, although at about 100 feet altitude. I nosed down, turned back and "nursed" my engine around until I was able to make a good landing near the stand. Everybody was up and excited and evidently expecting a thrill. Guess I disappointed them, or perhaps relieved their feelings. I didn't think anything of it, until I got back to the stand, but apparently had done just what the "old heads" thought was the right thing but scarcely expected. Our first cadet to get killed here lost his life in a similar predicament but I happened to see the whole accident and hence profited by his mistake.

I do not wish to scare you by writing these experiences but to let you

Have you will look at it entirely that way. Realize that you are probably especially worried with Spencer now in France, but I know that you are very brave and that yours is much the harder fight. I know, too, that if necessary you are prepared to make the sacrifice, even as we are. Do not worry, though, because there are thousands still in this war who were in it at the very beginning. Rather, you should be proud that both of your boys are right where they are. The longer I am in this war, so to speak, the more interested do I become, and the greater my desire to do my part. Am convinced that this is by far the greatest crusade that history has ever known, and it is impossible for me even to imagine how any red-blooded young man with Christian ideals and subject to military call can keep out of it for a moment. To me it is not only an opportunity but a sacred trust, in a way, to say nothing of duty. To risk one's life is honorable. To risk one's honor is dishonorable. These things I have learned from your teachings.

Have just learned that I have been advanced from the acrobatic stage to the "hurdle and dead motor" stage. This stage requires quite a little accuracy in judging distances and landing. We have to cut off our motor at 500, 1,000 and 2,000 feet and land within a certain space, and in some cases jump hurdles. It is excellent training for us when we come to have forced landing in strange fields on cross-country trips. It will probably require two days to finish this stage and then I'll be ready for cross-country flying. The cross-country stage is the last in our training here. This should not require more than two weeks at the most, but, due to the small number of ships at our disposal, it may be three. In any case I should have my commission not later than August 1, and there is a bare possibility that then I may be permitted to come home for a few days.

Your loving son,
MELVIN.

TEN COMMANDMENTS IN SUGAR CONSERVATION.

1. Stir your tea, coffee or cocoa well. Don't leave sugar in the bottom of the cup.
2. Sweeten breakfast cereals with honey, syrup, maple sugar, raisins or dates.
3. Substitute molasses, maple syrup, or syrups made from sorghum and corn, for part of sugar used in cooking. Substitute syrups or honey for part of the sugar in cake. One cup of syrup or honey will take the place of one cup of sugar and one-fourth of a cup of liquid. In almost any cake recipe the syrup or honey may be used for one-half of the sugar.
4. Make your cakes without frosting.
5. Use fresh, dried or preserved fruit for dessert in the place of "made dishes" that require sugar. Bake apples or pears with a little water for several hours, until a rich syrup forms. If more sweetening is desired, add honey or molasses. Cook dried prunes without sugar in the water in which they were soaked until the liquid is almost boiled away. If more juice is wanted add water to the syrup. The long, slow cooking develops a rich flavor and the addition of sugar is unnecessary.
6. Cut down the use of candies and sweet drinks. They are luxuries, not necessities. Use fruits, nuts, or popcorn if you must eat between meals. If you must eat candies, choose only those made from no sugar.
7. Preserve as much of your fruit as you can by drying it in large quantities.
8. Can fruits and fruit juices without sugar. This may be successfully done by the Cold Pack Method. They may be made into jellies or syrups as needed.
9. Limit the amount of jelly or preserves used. These should be limited to the needs of invalids and children. They may be made as needed from unsweetened canned fruits and juices. Use the least possible amount of sugar or syrup in making them.
10. USE NO MORE THAN 1½ TO 2 OUNCES OF SUGAR PER PERSON PER DAY (3 to 4 tablespoonfuls). This includes all sugar used in cooking as well as that used at the table.

The Ford automobile engine, illustrated here, like all internal combustion engines, requires an oil that holds its full lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. ZEROLENE LIGHT fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

"Zerolene is the Best"

—Say leading motor car distributors, because the records of their service departments show that ZEROLENE, correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit. Most cars are now lubricated with ZEROLENE because their owners have learned through experience that there is no better oil. ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car. At dealers everywhere and Standard Oil Service Stations.

GIRLS AS WELL AS BOYS IN VOCATIONAL AGRICULTURE AT HUNTINGTON BEACH HIGH SCHOOL.

Agriculture will be woman's work unless the Allies can reverse the German habit of winning all their wars. Even now women are managing farms and doing regular farm work. The Smith-Hughes Act allows girls as well as boys to take up vocational agriculture under its provisions. The students are to work three hours a day or more on the farm and are to put in one crop or more a year under the teacher's direction. They are to study farm science, mathematics and English three hours a day in a class at hours to suit the daily work, perhaps from five to eight p. m. The required hours are three and three, not four and four, as stated last week.

The class will be limited to twenty boys and girls between the ages of fourteen and twenty-one. The amount of schooling does not matter. So hand your names in early to F. H. McElfresh, Huntington Beach, California, as good workers will be accepted in the order of application. Transportation will be paid for this class as well as for the regular day students. The expense for books will be very slight.

The teacher we hire for this course will be an experienced farmer as well as a man with the agricultural education. A first-class man has been recommended to us by the state authorities, but we want to get our class signed up before we secure a teacher.

Principal.

WE CAN SELL YOU GOODS CHEAP FOR CASH.

LARGEST STORE AND LARGEST STOCK.

Those who have cash to pay for their groceries and carry them away themselves are realizing that the old-established firm of McKenney & Bentley is making attractive prices on quality goods.

There are some who still believe that our cash prices are high because we maintain the most extended delivery system in this section of Orange county. An inspection of our cash counter, where all goods are marked, will convince the closest buyers that our prices are the lowest to be found.

We handle more goods than any other firm, therefore we are the largest buyers. We have been in business longer than any other firm, and therefore have a reputation to maintain; consequently, what we say must be borne out by facts. Inspect our cash counter and be convinced. If you desire accommodations we are at your service.
